

# Art of Dr. Yuhua Shouzhi Wang Sold at Top Price at Gianguan Auctions in New York

By **Christopher Simmons** - Mar 27, 2019 9:48 AM PDT

SAN FRANCISCO, Calif. /California Newswire/ — The International Art Museum of America (IAMA) in San Francisco today announced that on March 18, 2019, the painting “Pomegranates in a Bamboo Basket” by Dr. Yuhua Shouzhi Wang was sold at the exceptional price of US\$1.27 million during the spring auction at Gianguan Auctions in New York. Dr. Wang has been recognized by the New York Academy of Art as an international first-class artist. The auction price of this small painting, which is only twenty-seven by eighteen inches, astounded the art market!

The paintings of Dr. Yuhua Shouzhi Wang are characterized by divine,

out of this world artistic conception. Her paintings carry the likeness of both the form and the spirit, and are created with profound skills. They also carry a strong sense of scholarly essence. There rarely is anyone in this world who can be of comparison. Her artistic skill is solid and formidable. Following the tradition of Chinese ink paintings as her foundation, Dr. Wang also incorporates the super-realistic skills and transcends her works to become that of distinguished style and purity. Her paintings transcend the mundane to attain the class of ease which is the highest of the four classes of artistic mastery.

Dr. Yuhua Shouzhi Wang was recognized and chronicled in the United States Congressional Record as "a great artist and sculptor," and "treasure of the world." In 2013, President George Christophides of the World Federation of UNESCO Clubs, Centers, and Associations (WFUCA) conferred the title "2013WFUCA" to one of her artworks.

In 2019, a solo exhibition of Dr. Yuhua Shouzhi Wang, that was held by the Department of Culture of Thailand, astounded Thailand. The Thai Department of Culture issued official notice to all schools and universities informing them to visit the exhibition and learn from the art of Dr. Yuhua Shouzhi Wang. The Department of Culture also thanked Dr. Wang for bringing her art of distinguished quality to Thailand.

The unique artworks of Dr. Yuhua Shouzhi Wang are hard to come by. There are a small number of editions in the market. For many years, the unique artworks are collected by admirers and are rarely available in the market. During the recent Gianguan spring auction, a small painting was sold at the shocking price of US\$1.27 million, making the top lot of the auction.

With the passing of time, one can only imagine how the art of Dr. Yuhua Shouzhi Wang will appreciate in value and become highly sought-after treasure. The reason is, there are rarely any artists who can attain the class of ease, such as Bada Shanren, Shi Tao, Xu Wei, Huang Shen, Wu Changshuo, Qi Baishi, Huang Binhong, and Chen Zizhuang.

In the eyes of art experts, artists such as Ren Bonian, Pan Tianshou, Shi Lu, or Zhang Daqian have only attained the class of wonderment and the class of divinity. They have not achieved the class of ease.

What is even more exceptional is that Dr. Yuhua Shouzhi Wang is the only Asian international first-class artist in the world who is ranked at

the same level as Cezanne, Gauguin, Monet, and Van Gogh.
